Mr. Frank Brock

Dear Mr. Brock,

The first Quarter 1994 activity for our facility NYU 118281 is as follows:

Nine wells were tested for mechanical integrity all wells passed. These wells were BW-4, BW-7, DW-16, EW-20, EW-2, GW-13, GW-10, CW-4 and EW-26.

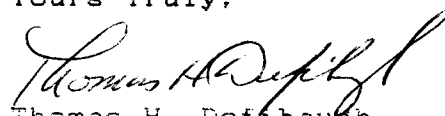

Pursuant to the order on consent a fund was established for financial security at Integra Bank in the amount of \$25,000.

I verbally informed Mr. Charles Hillenbrand on 4/12/94 that B.D.H. Oil would begin plugging on or about 5/1/94 and that we would notify Mr. Jeff Blair prior to our actual beginning.

Also included are the annual monitoring reports requested in your letter of 3/15/94. The wells to be tested are already done with the exception of EW-30 and DW-4. DW-4 is to be added to the plugging list along with DW-8.

Should you have any questions regarding this report please feel free to call me at 814-362-5447.

Yours Truly,

  
Thomas H. Defibaugh
